

CONTINUITY & RESILIENCE

5 Day Lead Auditor Course on Information Security Management System (ISMS) based on ISO 27001:2013

Course description:

With the help of a number of hands-on team/individual exercises, role plays and a case study, this 5-day instructor-led ISO 27001 Lead Auditor Training Programme enables participants to gain an in-depth and practical understanding of the ISO 27001:2013 audit requirements. There is particular focus on audit management and consistent report writing and the conduct of all key stages of a real life ISMS (Information Security Management System). Interactive discussions, videos, quizzes, refreshers and continuous assessment techniques are employed to ensure ongoing participant involvement and accelerated learning.

A certificate of successful completion of the course will be issued to those participants who complete the continuous assessment and written examination. Participants who do not qualify in the continuous assessment or the written examination will be given a certificate of attendance only.

Training methodologies include videos, classroom lectures and discussions on the audit process, and also individual/group exercises based on a case study/role-plays.

Learning Objectives:

- Explain the purpose of an Information Security Management System (ISMS) and explain the processes involved in establishing, implementing, operating and monitoring, reviewing and improving an ISMS as defined in ISO 27001, including the significance of these for ISMS auditors.
- Explain the purpose, content and interrelationship of ISO 27001, ISO/IEC 17799 and ISO 19011, ISO/IEC TR 13335 Parts 3 and 4 (GNITS), EA 7/03 and the legislative framework relevant to an ISMS.
- Explain the role of an auditor to plan, conduct report and follow up an ISMS audit in accordance with ISO 19011; the role of an auditor to plan, conduct, and follow up an ISMS audit in accordance with ISO 19011 and the guidance criteria contained in EA 7/03.
- Develop skills to interpret the requirements of ISO/IEC 27001 & EA 7/03 in the context of ISMS audit and undertake the role of an auditor to plan, conduct, report and follow up an ISMS audit in accordance with ISO 19011.

Who should attend:

- Internal auditors and others wanting to perform and lead ISMS certification audits.
- Project managers or consultants wanting to master the ISMS audit process.
- CxO and Senior Managers responsible for the IT governance of an enterprise and management of risk.
- Members of an information security team and Technical experts wanting to prepare for an IS Audit role.
- Expert advisors in information technology.
