

CONTINUITY & RESILIENCE

CBCI Certification Course Based on the Good Practice Guidelines (GPG) 2018

Course description:

The CBCI Certification Course has been revised to ensure that all the methodologies taught in this course are fully aligned to the Good Practice Guidelines (GPG) 2018, the independent body of knowledge for good Business Continuity (BC) practice.

Based on current global thinking in BC, the course has also been aligned to ISO 22301:2012, the international standard for Business Continuity Management (BCM) to ensure its international relevance and global applicability.

The course offers a solid description of the methods, techniques and approaches used by BC professionals worldwide to develop, implement and maintain an effective BCM programme, as described in GPG 2018.

This training course is intended to meet the current and future technical and professional needs of BC professionals working in organizations of any type and size, in any industry or sector worldwide.

The course is designed to be run in 3, 4 or 5 days and also entitles you to 24, 32 or 40 CPE credits.

Learning Objectives:

- Teaches you not just the 'what' but also the 'why', 'how' and 'when' of good BC practice
- Equips you with the knowledge and understanding you require to be able to practise BC in line with GPG 2018
- Prepares you for the Certificate of the BCI Examination, which leads to an internationally recognised credential and post-nominal designation in BC (CBCI), and is the launching pad for Statutory Membership of the BCI
- Provides practical insights to good BC practice and expertise by learning from some of the best BC professionals in the industry
- Meets the current and future needs of BC professionals worldwide
