

CONTINUITY & RESILIENCE

1 Day NCEMA 7000:2015 Fundamentals of Business Continuity Workshop

Course description:

The NCEMA 7000 – Business Continuity Management Standard (Specifications) was released in 2015. The following BCM references and documents have been used in developing this standard:

- ISO 22301:2012(E)
- BS 25999-1:2007
- NFPA 1600:2010
- AS/ NZS 5050:2010
- ISO 31000:2009
- SS540:2008

This workshop is designed to give an overview of the standard NCEMA 7000:2015 and the steps required to implement a Business Continuity Management System using the same. This is the first and right step in understanding this new standard for implementation, preparing for being audited or auditing according to NCEMA 7000:2015. Training methodologies include classroom training, videos and group discussions. Knowledge checks and quizzes are made use of in order to enhance the participant learning experience and knowledge retention. All participants will receive a 'participation certificate'.

This workshop entitles you to 8 CPE credits.

Learning Objectives:

- Appreciate the value of BCM, and its key drivers
 - Understand NCEMA 7000:2015 - Its purpose, Key clauses and Implementation (of a new BCMS)
- Common features with ISO 22301
- Appreciate the Management System elements as defined with the help of NCEMA BCM Model

Who should attend:

- All employees who are involved in or need to support the BCM initiative within the organization. Particularly those from BCM-related domains such as Crisis and Risk Management, Emergency Planning, Information Security, Operations, Facilities, Administration, HR, Audit, Legal and Compliance, Quality.
- Those who want to have merely a high-level understanding of the steps involved in implementing BCM, such as Senior Management, Students, Researchers, Technocrats, Bureaucrats, Consultants and Professionals from unrelated domains.
- Applicable to organizations of all types whether they are yet to start their BCM journey, or have established BCMS (but not certified yet).
