

CONTINUITY & RESILIENCE

5 Day ISO 22301 Lead Auditor Course

Course description:

With the help of over 15 hands-on team/individual exercises, role plays and a case study, this 5-day instructor-led ISO 22301 Lead Auditor Training Programme enables participants to gain an in-depth and practical understanding of the ISO 22301:2012 audit requirements. There is particular focus on audit management and consistent report writing and the conduct of all key stages of a real life BCMS (Business Continuity Management System). Interactive discussions, videos, quizzes, refreshers and continuous assessment techniques are employed to ensure ongoing participant involvement and accelerated learning.

This course entitles you to 40 CPE credits.

BCMS auditors require detailed understanding of the ISO 22301 standard, so that they can verify effective implementation of BCMS. Intention of this course is to enable participants to ensure effective audit of the BCMS, the intention of which is to enable the company to effectively respond to any business disruption event. A certificate of successful completion of the course will be issued to those participants who satisfactorily complete the continuous assessment and written examination. However, participants who do not qualify either in continuous assessment or the written examination will be given certificate of attendance only.

Learning Objectives:

- Explain the requirements of ISO 22301:2012 in context of audit.
- Describe the purpose of BCMS and explain ISO 22301:2012, processes and techniques for identification and assessment of Business Continuity Management System
