

## Press Release

### 1<sup>st</sup> Online Business & IT Resilience Summit To Be Held on 11<sup>th</sup> December 2019

**October 18, 2019:** Continuity & Resilience is holding 1<sup>st</sup> Online Business & IT Resilience Summit on 11<sup>th</sup> December 2019.

Daman Dev Sood, COO at CORE (Continuity & Resilience) said, *"We have the experience of delivering more than 15 physical Summits in different countries, and are pleased to announce that Continuity & Resilience is all set for the Online version of the Business & and IT Resilience Summit on 11<sup>th</sup> December 2019. As a premier 1 day event, this summit will bring together all excellent thought leaders and minds in the fields of Crisis Management, IT Disaster Recovery, Physical Security, Information Security, Cyber Security, Risk Management and Emergency Response at one place. The discussions and presentations will include innovative ideas, new thoughts, and resolutions to efficiently manage all phases of the BCM implementation lifecycle."*

The 1<sup>st</sup> Online Summit is expected to be attended by more than 250 professionals, who will be sharing their knowledge and experience in the field as well as learning from the numerous BCM projects. The summit will include educational sessions with case studies, panel discussions and keynotes etc.

The Summit is open to all organisations from all sectors, including Government and PSUs. The discussions will be of interest particularly to professionals, trainers, consultants, auditors in BCM and related domains like Crisis Management, IT Disaster Recovery, Physical Security, Information Security, Cyber Security, Risk Management and Emergency Response etc. The talks will benefit the experts in these fields as well as those who have recently begun their journey. The value proposition of the Online Summit is that even the top management and others who generally are short of time, can also attend as they do not need to travel as they would need to attend a physical event.
